

**Customer Advisory #36 - 2014
Congestion Surcharge
Imports & Exports, All US Ports
Effective October 5, 2012**

Dear Valued Customer,

Please be advised CMA CGM (America) LLC filed a Congestion Surcharge in our tariffs in October of 2012 which will come into effect in the event of labor unrest or action such as strikes, lock-outs, work stoppage or slow-down which may give rise to significant increases in port congestion or seriously disrupt our normal course of operations.

To cover increased costs arising from such congestion, effective **October 5, 2012**, CMA CGM filed Port Congestion Surcharge to all shipments loaded or discharged at ports in the United States during any period of congestion resulting from labor unrest. The Port Congestion Surcharge shall be assessed as follows:

Size	Type	Level (USD)
20'	(all types)	\$800.00
40'	(all types)	\$1,000.00
40'HC	(all types)	\$1,100.00
45'	(all types)	\$1,266.00
53'	(all types)	\$1,600.00

This measure is being enacted without prejudice to CMA CGM's right to exercise its option to reroute or terminate carriage of goods under Term 10 of its Bill of Lading should operational considerations demand such action.

Please note that this surcharge has been adopted as a precautionary measure to address the effects of potential labor action. Should there be no labor action affecting cargo movement to or from U.S. ports, no surcharge will apply.

We thank you for your continued support.

Should you have any questions or concerns regarding this notice, please contact your local CMA CGM (America) sales representative.

Best regards,

Todd Rives
Sr. VP & CCO
